Meet Manager 4 upgrade enables Meet Mobile

Auckland Swimming is pleased to announce that they have upgraded their software for running all ASA meets from the Hy-Tek's Meet Manager 3 to Meet Manager 4.

There are several significant enhancements which this software provides, but most visible is the capacity of Meet Manager to provide for live-streaming of results onto mobile devices such as the Apple iPhone and iPad products. Any swim meet anywhere in the world (whether it is a Coast Swimming Club at West Wave, or the 2012 US Olympic Trials in Omaha) using Meet Manager 4 will have all results streaming live and searchable.

In order to access this facility which allows a remote party to monitor results from a meet by event, or to follow an individual participating swimmer or team in real time as it is happening, then you will need to download a free 'app' from the app store.

The app is called 'Meet Mobile'

Clubs hosting meets licensed by the ASA at West Wave and who wish to utilise the facilities offered by Meet Manager 4 will need to prepare their meet files using Meet Manager 4 software. In order to provide for Live Results via Meet Mobile there are set-up parameters to be completed in Meet Manager which Chantal can assist with.

The ASA live results function on the ASA Website will continue to be utilised for all those who do not wish to avail themselves of the Meet Mobile function.

Below the title, there is a "Back" button and a home icon. The main content area shows "Finals - Results" with a green circle and "In progress" text. Below this, there is a section for "W13 Year Olds - Results". The results are listed in a table with four rows, each showing a swimmer's name, club, and time. The first swimmer is Jackie Smith from PUKCO with a time of 1:06.83. The second is Darla Smith from CSCAK with a time of 1:08.78. The third is Charlotte Carver from NSSAK with a time of 1:09.02. The fourth is Leah Smiles from PUKCO with a time of 1:09.38. At the bottom, there are navigation icons for a star and a play button, and a "Last updated 1:41 PM" indicator.
