

North Shore Swimming Club have obliterated the current world record with a time of **21:22:83.**

North Shore Swimming Club had 100 swimmers ranging from 40 to 12 with each swimmer completing 25m. The 4th November will be a long celebrated date for North Shore Swimming Club. Staff, members, life members, NSS board, guests, sponsors and family members all came along to witness North Shore Swimming embark on breaking a long standing world record set by Swedish Club Kristianstad SLS with a time of 30:00,69 in December 1992.

As quoted by Moss Burmester – “It was a great event and a lot of fun! Very cool being part of a 100 person relay with so many different swimmers!

It will be one of my swimming highlights and North Shore shows what an amazing culture it is building and a great example for the rest of the country and NZ swimming organisation.”
